

eNotes for Schools

From curriculum units, lesson plans, and response journals to worksheets focusing on specific literary and rhetorical devices, we're adding dozens of new, original teaching resources every month. We have affordable solutions for programs of any size.

An eNotes School Membership pass is the most cost-effective way to unlock our downloadable resource library as well as our 30,000+ study guides for your educators. Whether you need access for a small number of teachers or for every faculty member in your large program, we can work with you on a custom plan that fits your needs and budget.

Our lesson plans and educational resources have been developed to meet the demanding needs of today's educational environment by promoting interaction, analytical skills, and student-centered activities.

All of our lesson plans and educational resources include:

- A brief synopsis of the text
- A guide to lesson procedure
- Preparation and extension ideas
- Activities complete with answer keys

All of our educational resources draw on Common Core standards, save teachers valuable planning time, and get students working directly with the texts.
